

User Stories

Three Users considered.

Admin

- As an admin I want to be able to add new dataset. So, I can add new data as required.
- As an admin I want to have option to give limited access to staff. So, I can make sure everyone has authenticated access to website.
- As an admin I want to access reports. So, I can analyse population and demographics efficiently.

Staff

- As a staff member, I want to have login access. So, I can work on my project.
- As a staff member, I want to be able to change my password. So, I can reset my password when I forget it.
- As a staff member, I want to view and filter data. So, I can save my time and come to conclusion easily.
- As a staff member, I want to have access to reports. So, I can analyse data for decision making.

Researcher

She is part of organisation we are working for and one of our personas as well.

- As a Researcher, I want to have authenticated access over data. So, I can format any incorrect information in data.
- As a Researcher, I want staff member to share me the report they generated. So, I can make sure everything in the report is correct and ready to publish.
- As a researcher, I want to have data to be properly structured. So, I can retrieve data efficiently.
